

## Instructions for Smartmail

1. Go to Yahoo.com.
2. Sign up for a free yahoo email account.
3. There will be three choices to pick from. Choose the free yahoo account option.
4. You will be asked to fill out a registration form.
5. Enter the information requested.
6. Click on the "I accept" button at the bottom to get your account.
7. You will then go to a registration complete page. Choose continue to Yahoo mail.
8. This will take you to your email box.
9. In the upper left corner, in small writing, it says Yahoo. This will take you to the Yahoo home page.
10. From this page you will choose mobile.
11. Then go to create alerts.
12. Click on get started. This will take you to the Yahoo alert page.
13. Click on the type of alert you wish to have.
14. Fill out any blanks for that alert. Example: To get sports scores, you have to choose a team and the number of times you want the alerts sent.
15. You will then choose add a mobile device.
16. It will ask you the device type. Choose pager/other.
17. You can then choose a message limit.
18. Continue to step two.
19. Enter your pager email address. Example:  
1234567@telepagemail.com. You must have epaging to receive alerts.
20. Continue to step three.
21. At this point, you will need your pager. Yahoo will send a confirmation code to your pager. When you receive it, type it in the confirmation code box.
22. Continue to step four.
23. Click on done to receive your alerts. You may add other alerts by choosing different alerts and following the instructions.
